## ADRON SHERIDAN KEIFER QUIAKIDES

*(A-druhn Key-fur Kee-ach-uh-dees)*

Royal Title: **TIZI ADRON OF THE MOST SOVEREIGN BLOOD CLAN OF ETON ANATOLE | HIS ROYAL IMPERIAL AND SOVEREIGN HIGHNESS, THE CROWNED HEIR PRINCE ADRON TRIOSAN, LORD OF THE TRIOS EMPIRE**

Commonly Known As: **ADRON QUIAKIDES**

Nicknames: **A, ACE**

### GEN 2

The eldest son of Nykyrian and Kiara, Adron was one of the fiercest League Assassins ever trained. As his father before him, he was untouchable . . . until the day he traded himself for a pregnant hostage to one of the nastiest criminals in existence. Butchered and left for dead, he barely survived. That single act of kindness cost him everything. His life. His wife. His dignity and body.

After that day, he hated his brother for saving his life when Jayce should have killed him in accordance to League Law. But having lost a sister, Jayce couldn't stand the thought of losing his brother, too.

For years, Adron despised him for that mercy and lived embittered and angry at the world over the fact that he'd been left shattered, with limited mobility and in unrelenting physical and mental pain.

Until the day fate intervenes and sends an unlikely angel in need of a tarnished knight to save her from a destiny she wants no part of. Livia restores not only his physical body, she gives him back his life and his soul.

Trivia: ***Almost lost his right eye in a race against Dev when they were kids.***
